

Bushnell Match Pro 15x56

Product Specification

Description

The Bushnell Match Pro 15x56 binoculars are designed to deliver exceptional optical performance for outdoor enthusiasts and professional users alike. Featuring a robust roof prism system with BaK-4 prisms and fully multi-coated lenses, these binoculars offer clear and bright views even in challenging lighting conditions. Built to withstand the elements, they are waterproof and fogproof, ensuring reliability in various outdoor environments. The precision and match shooter needs a binocular with great optics so they can glass all day with clarity and minimal eye fatigue. The Bushnell Forge 15x56 binocular brought this to the market and at a great price. However, it was missing something. You asked, and we listened again. The Match Pro ED 15x56 is a binocular based on the revered Forge 15x56 with Abbe-Koenig prisms and ED Prime glass, but we added a first-of-its-kind MRAD reticle that rotates – The Shot-Call MRAD reticle.
