

## Olympus 8x40 S Binocular

### Description

Olympus Standard binoculars are the perfect companion for observing nature, sport, wildlife and bird watching. A wide field of view makes locating a subject quicker and easier, particularly when panning a wide area or tracking fast-moving subjects, such as birds, animals and action sports. The large objective lens diameter offers bright high-resolution images even in low light. Advanced optical technologies including aspherical lenses plus coated lenses and prisms ensure a high level of optical performance by reducing image distortion and chromatic aberration for sharp images and a clear field of view with superb transmittance. With a durable, high-quality finish resisting any nature conditions and a rubber coated grip ensuring a safe hold these binoculars are well equipped for outdoor use. Maximum comfort, functionality and portability is granted thanks to the slim, simple design and ergonomic controls. All elements have been arranged precisely for a compact size, resulting in a sharp impression and a lightweight body

### Product Specification

- **Make:** Olympus Japan
- **Model:** 8x40 S
- **Prism type:** Porro Prism type
- **Magnification:** 8x
- **Objective lens diameter:** 40 mm
- **Exit pupil diameter:** 5 mm
- **Real field of view:** 8.2°
- **Apparent angle of view:** 59.7°
- **Based on ISO 14132-1: 2002 calculation**
- **Field of view:** at 1,000m, 143 m
- **Relative Brightness:** 25
- **Eye-relief:** 12 mm
- **Diopter adjustment range:** Over  $\pm 2m^{-1}$
- **Eye interval adjustment range:** 60 – 70 mm
- **Close Focusing Distance:** 4 m
- **Weight:** 715 g
- **Size W x H x D (mm):** 183 x 142 x 60
- **Lens construction:** 5 Elements 3 Groups
- **Coating Single:** layer coating
